

AKRAM ANSARI

MERN Stack & Next.js Developer

Ghazipur, Uttar Pradesh, India | +91 95554 78428 | akramansari27923mah@gmail.com
[LinkedIn Profile](#) | [GitHub Portfolio](#) | [Portfolio Website](#)

Professional Summary

Highly motivated and detail-oriented MERN Stack & Next.js Developer with hands-on experience building responsive, secure, and user-centric web applications. Proven expertise in developing high-performance frontend interfaces with Next.js and React, managing state with Redux Toolkit, and architecting scalable backends with Node.js, Express, and MongoDB. Specialized in integrating AI APIs and implementing modern authentication workflows, including Google OAuth and JWT.

Technical Skills

- **Programming Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks & Libraries:** Next.js, React.js, Redux Toolkit, React Router, Tailwind CSS, Express.js, Node.js
- **Databases:** MongoDB, Mongoose ODM
- **Developer Tools:** Git, GitHub, Postman, Vercel, Render, Chrome Developer Tools
- **Core Concepts:** RESTful APIs, JWT Authentication, OAuth (Google OAuth), CRUD Operations, System Deployment, Responsive Web Design, State Management

Projects

Grammar Checker AI (AI-Powered Writing Assistant)

grammarcheckerai.vercel.app

Technologies Used: Next.js, React.js, Tailwind CSS, Google OAuth, JWT, AI Language Models

- Engineered a real-time AI writing assistant using Next.js to detect and correct grammar errors instantly.
- Implemented secure user authentication integrating Google OAuth and custom JWT for persistent sessions.
- Architected optimized API routes to parse user inputs and communicate safely with external AI APIs.
- Crafted a clean, interactive text editing workspace using Tailwind CSS for a seamless user experience.

NoteCraft AI (Full-Stack AI Notes Generator)

notecraftai.vercel.app

Technologies Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, AI Integration APIs

- Developed a full-stack MERN application leveraging generative AI APIs to draft custom formatted notes.
- Configured robust token-based user authentication using secure custom password hashing and JWT.
- Built scalable RESTful backend endpoints with Node.js, Express.js, and MongoDB Atlas, deploying frontend and backend independently on Vercel and Render.

Nexora AI (Full-Stack AI Web Application)

nexora-ai-nine.vercel.app

Technologies Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs

- Developed a dynamic and highly responsive web application using the MERN stack to deliver interactive client-side experiences.
- Built robust backend RESTful APIs with Node.js and Express to handle secure request processing and database transactions.
- Modeled scalable database schemas on MongoDB for secure data persistence and structured model validation.

Personal Portfolio Website

akramdev.vercel.app

Technologies Used: React.js, Tailwind CSS, Git

- Developed and deployed a high-speed portfolio showcasing personal coding projects, live links, and GitHub repositories.
- Styled fluid and modern responsive layouts from scratch using Tailwind CSS to support all mobile and desktop devices.

Education

Bachelor of Computer Applications (BCA)

2026 – 2028

Veer Bahadur Purvanchal University

Jaunpur, Uttar Pradesh, India

Key Competencies & Additional Information

- **Application Hosting:** Proficient in configuring and deploying full-stack modern architectures using Vercel and Render.
- **Problem Solving & Debugging:** Strong troubleshooting skills across React/Next hook lifecycles and Express API routes.
- **Team Collaboration:** Dedicated to maintaining clean codebases using version control with Git and GitHub workflows.
- **Aptitude & Adaptability:** Fast learner, passionate about industry standards, and capable of integrating new SDKs and libraries.
